About Us

Higher Education Forum (HEF)

Founded in 2010

HEF is a professional conference organizer dedicated to hosting international joint academic conferences across various fields. Our goal is to promote global scholarly exchange and support professional development through well-structured academic platforms.

Who Are We?

We bring together esteemed scholars and professionals from Asia, Europe, North America, and around the world. HEF is committed to fostering meaningful connections and bridging international academic communities.

What We Do?

- Organize international conferences in major cities across Asia
- Connect scholars to share research, ideas, and experiences
- Support academic growth and collaboration across disciplines
- Create opportunities for diverse, forward-looking academic dialogue

Mission and Value

Higher Education Forum

Mission

Bridging generations through knowledge
and connection

Value

With a commitment to inclusivity,
academic excellence, and cross-
cultural collaboration

Our Goals

Encourage Interdisciplinary Collaboration

Foster an inclusive environment where scholars from various fields can connect, exchange ideas, and work on interdisciplinary solutions to global challenges

Bridge Academia and Industry

Create opportunities for dialogue and collaboration between academic researchers and industry professionals to encourage practical applications of academic research.

Expand Educational Networks

Build sustainable partnerships with universities, research institutes, and international schools to broaden the scope of academic engagement.

Support Early Academic Exploration

Provide young scholars with access to academic conferences and mentorship opportunities to guide their future research or graduate study paths.

2025 Kyoto Conference

Proposal Objective

This proposal presents a strategic initiative to **increase international school participation** in our academic conferences. By establishing partnerships with leading international schools, the initiative **aims to diversify conference attendees, promote cross-cultural academic exchange, and position our events as premier platforms for global education dialogue**. Currently, high school engagement remains limited, yet these institutions represent a valuable network of educators and students eager for meaningful professional development opportunities.

The proposed strategy involves a **three-phase approach**: identifying suitable partner schools through market research, engaging them through targeted outreach and incentives, and integrating them into conference programming via dedicated sessions and speaking opportunities. Successful implementation of this plan is expected to result in a 20–30% increase in international school involvement within two years. This initiative aligns with broader goals of educational inclusivity and innovation, and we invite support in launching and sustaining this effort.

Upcoming Conferences

More Conferences in the Summer!

TAIPEI *May 18-20*

OSAKA *June 17-19*

TOKYO *June 25-27*

HOKKAIDO *July 16-18*

OKINAWA *July 23-25*

HAWAII *August 11-13*

CHIANG MAI
November 06-08

Benefits for Students

01 Gain, Learn, Experience

Offers students a professional platform to present research, develop academic and communication skills, and engage with diverse global perspectives in a supportive environment.

02 Alignment with Academic Goals

Enhances global education through real-world experiences, enriches academic portfolios, and provides early academic guidance and professional feedback.

03 Socializing Event

Combines academic learning with cultural exploration, social connection, and memorable experiences.

04 Early Academic Participation

Provides a strong foundation in academic and communication skills, fosters self-motivation and confidence, and offers an early start in international networking and collaboration.
